Some of the questions we'll be exploring:

- What is conversation?
- How do we engage in respectful, satisfying, productive conversations on the issues that matter?
- Is conversation an important tool for constructive social change? If so, how?
- How do we promote conversation – amongst the people we know?
- How do we reach out to people we don't know?

If you can, come with a friend. It will make for a richer experience.
